H15 handheld fan

[Powerful Turbo Fan Handheld - Max 9m/s Strong Wind] Equipped with an advanced brushless high speed motor, this handheld portable fan delivers an intense jet of cooling airflow up to 9m/s. Features 5 adjustable speeds to instantly lower your body temperature and blow away summer heatwaves in seconds.

[Real 4000mAh Battery - Long Lasting Rechargeable Fan] Powered by a genuine 4000mAh rechargeable lithium battery, this portable handheld fan provides up to 12 hours of continuous personal cooling on a single charge. No more frequent charging during outdoor activities or daily commuting.

[Smart Digital LED Screen - Say Goodbye to Low-Battery Anxiety] The crystal-clear integrated digital display monitors your real-time wind speed level and exact remaining battery percentage. Combined with universal USB-C fast charging, this mini handheld fan

keeps you fully informed and prepared.

[Compact Mini Fan & Perfect Summer Gift Choice] This pocket-sized small handheld fan easily slips into any purse, backpack, or carry-on. Safe Pure Virgin ABS Construction, it makes a thoughtful and practical summer cooling gift for family and friends.

Comfortable Ergonomic & Foldable Design: This personal foldable fan features an improved non-slip diagonal texture grip for extra comfort and stability. A great gift choice for home, office, travel and outdoor activities.

H08 handheld fan

【Ultra-high Wind Speed】 This handheld turbo fan adopts an advanced 4-blade design and is equipped with a high-speed three-phase brushless motor, with a maximum wind speed of up to 9.5m/s. Maximum speed is 13,500 rpm, which is 3 times that of ordinary handheld fans. Perfect for relieving the heat during hot journeys.

【Long Battery Life & Fast Charging】Designed for all-day portable use, it runs 10.5 hours. Just one gear equals others' 2-3 gears. With 2A fast charging, reach 100% battery in 2.5 hours.

【5 Speed Settings】 This handheld fan offers 5 adjustable speeds, from a gentle breeze to a strong wind, so you can customize your cooling experience anytime, anywhere.

【Portable & Air-Concentrating Design】 Slim, lightweight body (only 190g) easily fits in your pocket or bag, and comes with an anti-lost wrist strap. The wind-gathering structure concentrates airflow for powerful, instant cooling on the go.

Handheld Foldable Fan

7-Blade TurboCool Technology:

Engineered for relentless heat, the WHATOOK portable fan features an advanced 7-blade

design paired with a high-performance brushless motor. Perfect for travel, its compact build doesn't compromise on cooling efficiency.

Smart LED Display & 5-Speed Customization:

Stay in control with the built-in LED screen, which clearly displays real-time fan speed and battery levels. Tailor your cooling experience with 5 adjustable turbo wind modes—from gentle whispers to hurricane-strength gusts—ensuring personalized comfort wherever you go.

12-Hour Runtime & Lightning-Fast Charging:

Power through your day with a robust 4000mAh battery that lasts up to 12 hours on a single charge. When it's time to recharge, the fan's rapid-charging technology restores full power in just 2.5 hours. Say goodbye to constant charging anxiety and hello to uninterrupted summer adventures.

Category 2 -desk fan

Desk fan--10000mAh

10,000mAh Battery Powers Up to 40H — Long-Lasting Personal Cooling: Powered by a 10,000mAh rechargeable battery, this WHATOOK personal desk fan delivers up to 40 hours of continuous airflow on lower speeds. Designed with a 5.1" blade setup, it provides steady, refreshing air circulation for your desk, office, bedroom, tent, or cruise cabin without frequent recharges.

Compact 8.3" Body with Hangable Hook — Versatile Travel Essential: Measuring 8.3" × 7.1" and equipped with a fold-out hanging hook, this portable battery fan easily sits on your desktop or hangs in a camping tent. The sturdy base ensures stability on any flat surface, making it a space-saving essential for outdoor trips, nightstands, or open offices.

Under 40dB Low-Noise Operation — Quiet Breeze for Sleep & Focus: Engineered with an ultra-quiet brushless motor that operates below 40dB on lower settings, producing a gentle breeze ideal for sleeping, reading, or video calls. The LED screen automatically dims after 15 seconds so light won't disturb your sleep. (Note: Wind noise naturally increases on higher speed settings).

100 Stepless Speeds & Digital Display — Precise Control at a Glance: Easily adjust airflow with a smooth rotary knob for 1-100 stepless wind speed control, plus quick-jump presets (25-50-75-100). The real-time digital display shows battery percentage and current speed so you always know when to recharge, complete with a side safety switch to prevent accidental activation in transit.

Desk fan-5000mAh

24-Hour Airflow Marathon: Massive 5000mAh Battery lasts 2.5X longer than standard models - Equivalent to London-New York flight duration on single charge. Sleep/Office/Travel and Shift Work Companion - Survives 3 consecutive 8-hour shifts on low mode - Trusted by NHS night nurses and security professionals.

Pro-Grade Wind Control: WHATOOK - Reimagine the Way You Feel the Wind, Lab-Calibrated Micro-Adjustable Dial offers 1-100 Precision Settings from breeze to full 5m/s storm mode. Zero-Compromise Eco Power: 2.8W ultra-low consumption (65% less than standard fans) saving £10/year and 100% recyclable packaging - Carbon Trust & Energy Saving Trust.

Silent & Slim Dominance: Engineered with aerospace-grade turbo blades, 265g ultra-slim body (30% thinner than competitors) with EN 60704-1 quiet operation, fits cramped UK desks and caravans. Cross-Environment Warrior: IP54-rated construction withstands office/workshop/outdoor conditions - 360° protection against dust and accidental splashes. Military-STD-810G Tested* grille survives 1.5m drops.
